Chemical & Hazardous Materials Industry Exhibition

# INTER CHEM 2018

**BEXCO Exhibition Hall No.1 2B**  
**Aug. 16 (Thu) -17 (Fri), 2018**

Holding the 2018 Regular Meeting  
of the Korea Hazardous Material  
Society at the same time

## Greetings

Hello, ladies and gentlemen!

I am the President of the Korea Dangerous Material Society, Il Moon.

The Korea Hazardous Material Society is the only society regarding the hazardous materials in Korea and we have been striving for the safety of hazardous materials industry including chemical substances with various information sharing and academic development every year since 2013.

As a result, we have been able to feel the importance and necessity of the society through rapid change and innovation during the past five years.

Most of the accidents such as humidifier disinfectants, nitrogen suffocation, hydrofluoric acid gas leakage, phenol contamination, oil tank explosion in tunnels, huge fire in Jecheon and Milyang and so on are related to chemical substances and hazardous materials. Because of such unfortunate accident, many people are sadly losing their lives.

At this moment when the role of the Hazardous Material Society is further emphasized, we are holding the first academic event of the Hazardous Material Society in Busan.

The " **Chemical & Hazardous Materials Industry Exhibition (Interchem 2018)**" will be held at the same time in order to promote public awareness of chemical and hazardous materials safety and to expand the base of overall industrial safety in the Yeongnam region, which is known as the mecca of the domestic chemical industry.

In order to become an international exhibition and academic event, the Hazardous Material Society will continue its efforts based on various contents such as chemical safety management case and government policy of not only domestic but also advanced foreign countries through this exhibition and academic events.

In addition, we will present solutions for making Korea safe from chemical substances, starting with the "Interchem 2018", an exhibition related to chemical and hazardous materials, which is held for the first time in Korea. In order to make Korea safe from chemicals and dangerous materials. We will continue to develop this event into a place where the industry, academy, institute, private and public gather together to communicate and share information.

Since the Interchem 2018 will be an opportunity for SMEs to open up the market and it will also be a business opportunity for industrial development and academic development for stakeholders, I would like to ask for support and participation of many members of the related industry, government agencies, local governments and cooperating organizations.

Thank you very much!

President of the Korea Dangerous Material Society, Il Moon.

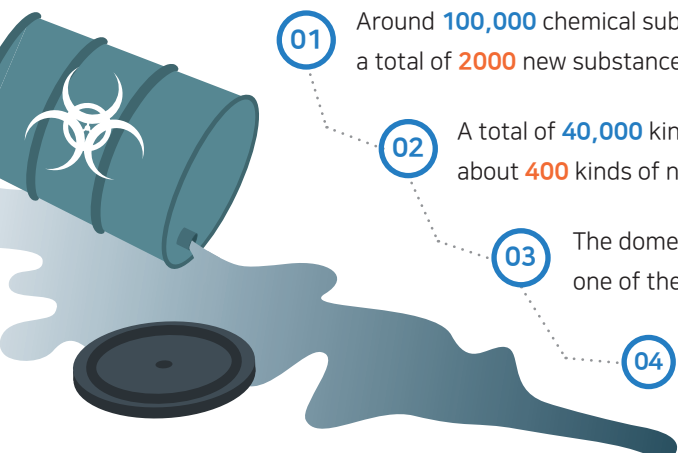

## What is Inter Chem ?

### The International Chemical & Hazardous Materials Industry Exhibition

is a business place for acquiring skills and information exchange that put safety of industrial site as the top priority through chemical and hazardous materials safety management and damage prevention.

## Why is Inter Chem ?

- 01 Around **100,000** chemical substances are distributed globally, a total of **2000** new substances are introduced every year
- 02 A total of **40,000** kinds of chemicals are distributed domestically, about **400** kinds of new chemicals are introduced into the market each year.
- 03 The domestic chemical industry is the second largest industrial sector in the world, one of the largest export sectors
- 04 The size of domestic chemical industry is 14% of total manufacturing industry, the 7th in the world Domestic Trend

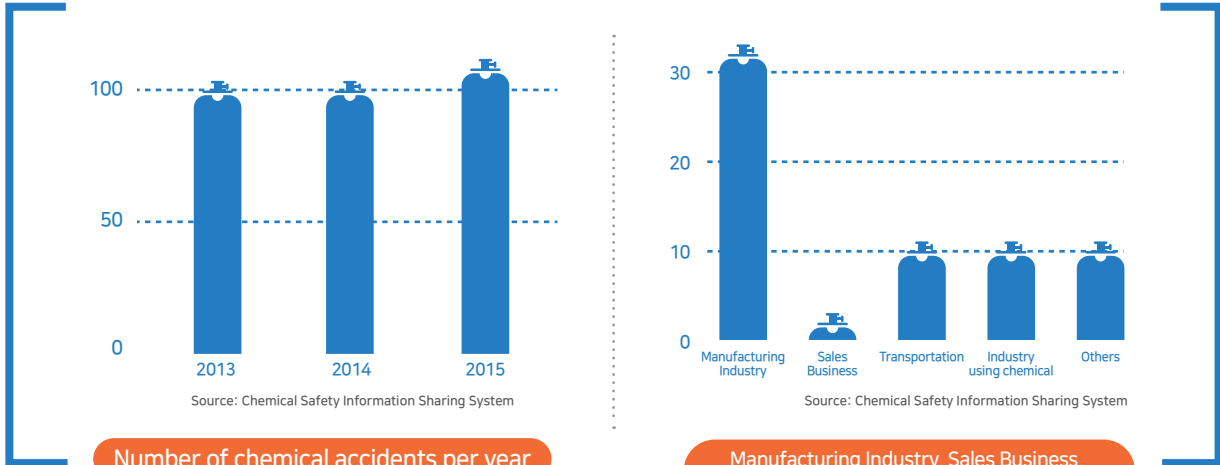

# Domestic Trend

The 'InterChem 2018' will make Korea a safe place from chemical.

## Chemical accident

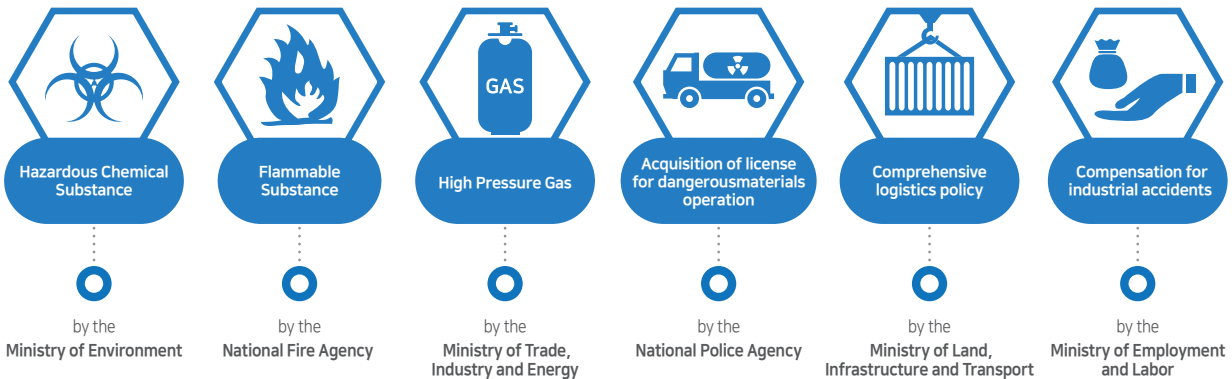

Large and small incidents in the chemical and hazardous industries!

- Humidifier disinfectant accidents, nitrogen choking accidents, hydrofluoric acid gas leakage in Gumi, phenol contamination, oil tank explosion in tunnels, huge fire in Jecheon and Milyang and so on... Increasing chemical accidents
- Due to the lack of trust and increased anxiety of the people, there is a significant interest in safety and management issues for chemicals and hazardous materials
- The rate of industrial accidents in chemical industry is higher than other industries, among which manufacturing is on the top.
- Because it is the industry that deals with various chemical substances, carelessness directly leads to a big accident!  
Need a control tower that becomes a center for the distributed domestic hazardous material management system.

## Need a control tower

that becomes a center for the distributed domestic hazardous material management system.

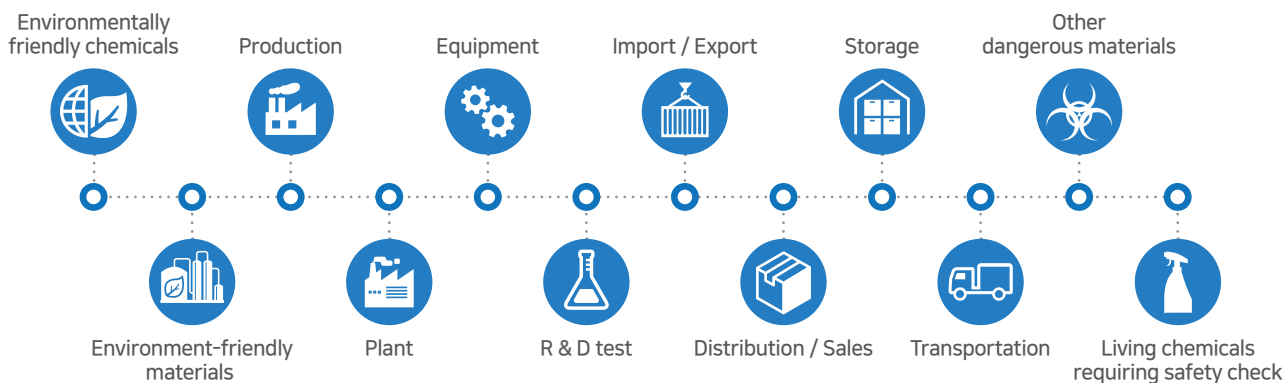

## Exhibition Overview

<b>Korean</b>	2018 국제화학물질 · 위험물 안전관리 산업전시회
<b>English</b>	Int'l Chemical & Hazardous Materials Industry Exhibition 2018
<b>Abbreviation</b>	Inter chem 2018
<b>Exhibition Period</b>	August 16-17, 2018, 2 Days
<b>Venue</b>	Busan BEXCO Exhibition Hall No.1 2B
<b>Exhibition Size</b>	4,418m <sup>2</sup>
<b>Organizer/Operator</b>	Korea Small & Medium Business Association, Busan Chemical Substance Management Association, Korea Hazardous Material Association / Centum Fairs, MiceStation
<b>Sponsor</b>	by the Ministry of Environment, Ministry of Trade, Industry and Energy, Ministry of Land, Infrastructure and Transport, National Fire Agency, National Police Agency, Busan Metropolitan City, Busan Small and Medium Venture Business Agency, National Institute of Chemical Safety, Korea Technopark Association (Busan, Daegu, Ulsan, Gyeongnam, Gyeongbuk, Pohang, Jeju), Korea Occupational Safety and Health Administration, Korea Research Institute of Chemical Technology, Ulsan Fine Chemical Material Technology Research Institute, National Institute of Environmental Research, Korea Gas Safety Corporation , Etc. (Expected)

## Exhibition Items

### Chemical

### Hazardous materials

## Additional Events

### 2018 Regular Meeting of the Korea Hazardous Material Society

KIHM 2018 Conference on Hazardous Materials

Regular academic conference of the Korea Hazardous Material Society, the only academic organization in Korea. It is an opportunity to share creative ideas by presenting various research results to prepare for the enlargement and complexity of safety accidents caused by hazardous material.

#### Major Schedule

| Deadline for booth and advertising applications: June 8 (Fri), 2018, 17:00

| Deadline for the paper abstracts: July 13, 2018 (Fri) 17:00

| Deadline for pre-registration: July 27, 2018 (Fri) 17:00

#### Presentation Subject

Conference Office : +82-2-313-9375

### Inter Chem Summit 2018 (CHMS 2018)

(Chemical & Hazardous Materials Summit 2018)

Inviting renowned speakers on chemical safety management sector from around the world!

A place where domestic professional faculty and industry engineers think together and discuss!

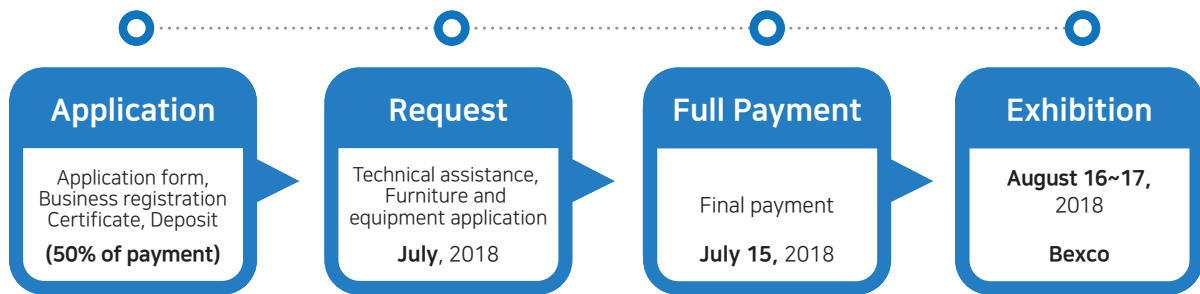

A place for information exchange to create new issues in accordance with international regulations and policies!

Presenting a new standard for international conferences that are held simultaneously with the exhibition!

# Exhibitor Guide

## Application Schedule

## Exhibition Fee

(Unit : USD, VAT)

Type	Package Booth	Raw Space
Fee	USD 350/ sqm	USD 300/ sqm
Details	<ul style="list-style-type: none"> <li>1 Booth (3m x 3m), Wall, Pytex, Signboard, Lighting, 1kw electricity, 1 set of information desk &amp; chair</li> </ul>	<ul style="list-style-type: none"> <li>1 Booth (3m x 3m) Raw space only (at least two booth spaces)</li> <li>Only designated companies can operate the facility and interior works.</li> </ul>
Draft		

※The details are subject to change.

## Booth Assignment

- According to deposit payment, booth size, exhibition item, membership, etc.
- The assigned space will be noticed to the exhibitor via E-mail.

# Busan

Unique and Different!  
Attractive **Culture** and **Tourism City**  
The Best of Korea **Marine Leisure City**

## Various International Convention Facilities

- Korea's No. 2 convention center (BEXCO)
- Busan Port Passenger Terminal convention center specialized in maritime, fishery and port
- Over 300 diverse special venues including cruise and gallery
- Conference room of International level accommodating up to 4000 people.

## Ocean-View Accommodations Ready

- A total of 55,000 rooms across the city 9,000 rooms within 10 minutes' walk from BEXCO
- Customized accommodations from five-star hotel to youth hostel
- Quality service and know-how from previous international conferences and exhibitions

## Business with Tourism

- The world's largest department store and other tourist attractions in 10 minutes' walk from BEXCO
- Busan International Film Festival, Busan International Fireworks Festival and other 40 festivals
- The possibility of business trip in the Korea's largest petrochemical complex(Ulsan)
